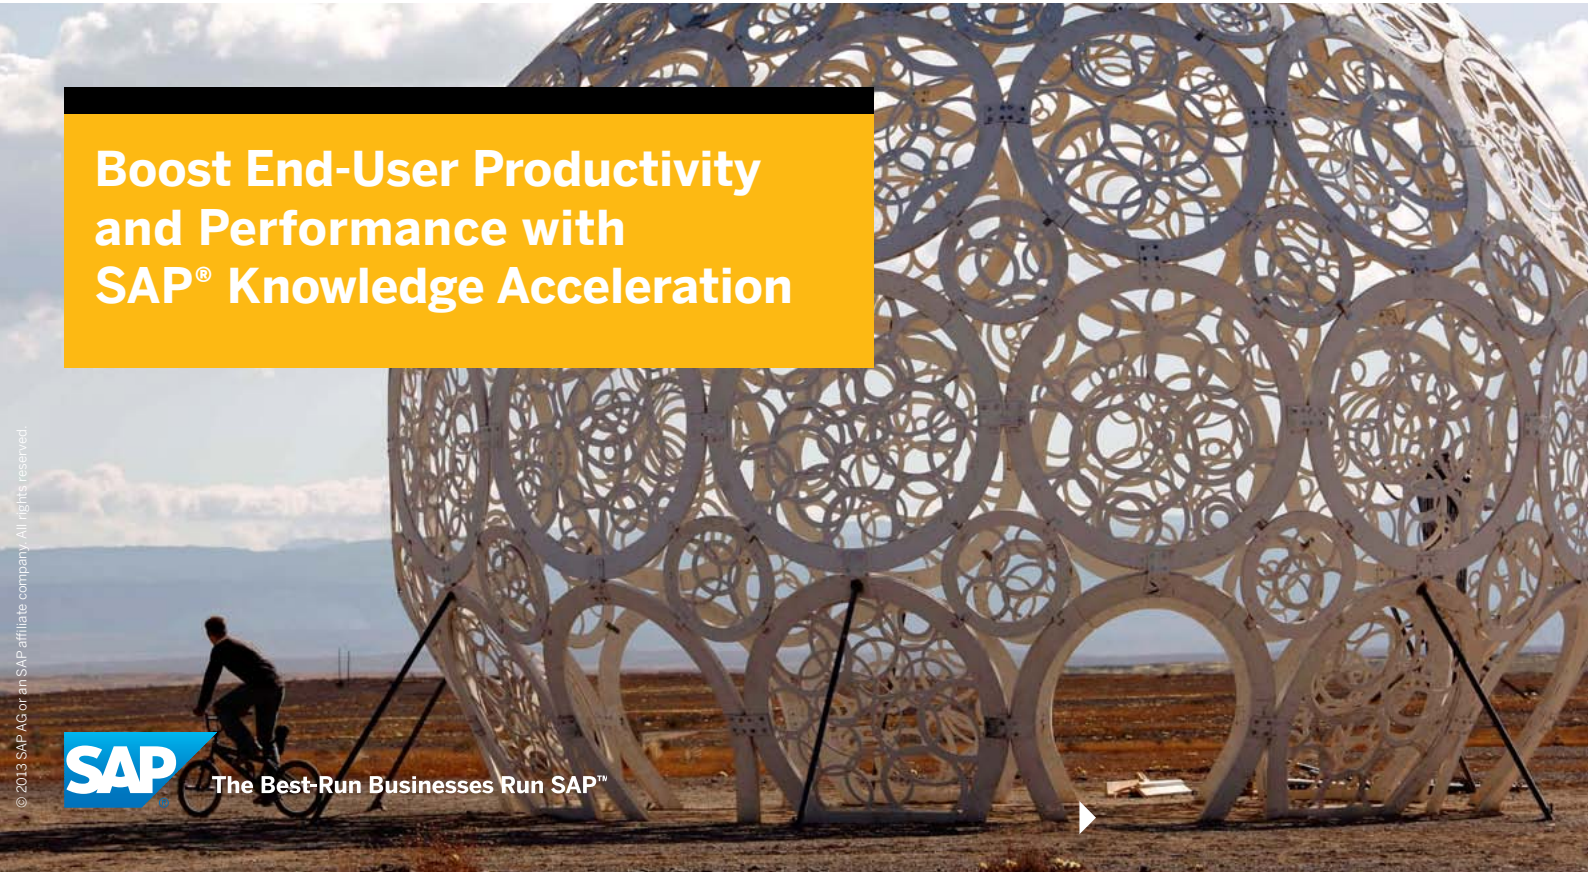
SAP Knowledge Acceleration

Quick Facts

Overview

Boost End-User Productivity and Performance with SAP® Knowledge Acceleration



The Best-Run Businesses Run SAP™

© 2013 SAP AG or an SAP affiliate company. All rights reserved.

Summary

A Web-based learning and support tool, SAP® Knowledge Acceleration software helps your organization increase productivity by providing role-based training and support materials for your user community. The software can be installed and deployed without costly or time-consuming integration efforts. And it allows you to add reference materials, so they are available across your organization, regardless of location or system constraints.

Objectives

- Increase the speed of end-user training and adoption
- Ensure that users are realizing the full benefits and functionalities of their SAP solutions
- Implement easy-to-use and cost-effective learning programs

Solution

- Fast deployment through your intranet, file server, learning management system, or CD
- Role-specific demonstrations and dozens of interactive simulations
- Assessment tools, quizzes, and activities to reinforce knowledge
- Out-of-the-box training or customization if needed

Benefits

- Provides users with hands-on instruction, at their fingertips, for just-in-time training and support
- Enables your team to work together more effectively
- Reduces costs related to travel and time out of the office
- Enables ongoing knowledge support for all software users

Versions of SAP Knowledge Acceleration software are available for specific SAP applications to teach your workforce how to access, analyze, and share corporate data.

Version for SAP ERP
Accelerate end-user training with integrated software for the SAP ERP application in the areas of managerial accounting, accounts receivable, and accounts payable. Your employees will be able to access and report on organizational data and master basic financial accounting.

Version for SAP CRM
Give end users the skills they need to unlock the power of the SAP Customer Relationship Management (SAP CRM) application. They'll be able to manage accounts, contacts, leads, orders, and sales – and analyze sales data. The software also enables them to manage marketing campaigns, create leads, segment target groups, and send personalized mailings.

Version for SAP BusinessObjects™ solutions
Unleash the full power of business intelligence with knowledge acceleration software tailor-built for SAP BusinessObjects™ solutions. Rely on training that is directly mapped to the software design. Take advantage of customization options.

Version for SAP BusinessObjects Business Intelligence, Edge edition
Get the training and support you need to realize the full value of your business intelligence solution – packaged and priced for midsize organizations. Leverage content that covers the full range of business intelligence. Speed training for key functions. And help your organization to take advantage of prepackaged data mart solutions.
