

In order to support the increasing demand for certified SAP consultants, SAP Education now offers the SAP eAcademy program. We have expanded our delivery channels to enable professionals to access core SAP training materials through dedicated training centers and distance learning. SAP eAcademy adopts the learner-centric approach to training. Our instructor-led Solution Academies are now available in a self-paced e-learning format and can be accessed through eAcademy – designed specifically to deliver knowledge wherever and whenever it's needed.

## E-Academy Program

The supported learning program delivers comprehensive training in a convenient and cost effective format. With eAcademies you will benefit from a **flexible learning program**. eAcademies allow you to learn whenever and wherever you want. The learner gets flexible access to e-learning content, training systems, and help desk support over a **3 or 5 month period**. eAcademies help their students get ready for job related tasks and prepares them for SAP's certification exams.

During the access period the student will get access to mentor tips and expert know-how via voice chat, Netmeeting, or Web-based chat. eAcademies are fully supported to ensure constant and consistent help to students for all units in the module.

### On-line learning tailored to your needs

- Course content designed specifically for consultants; focused on business process and solution areas.
- Flexible format allows students to proceed at their own pace and repeat lessons as needed while providing interactive snapshots and simulated exercises.

### Improved system access facilitates practical learning

- Live access to the SAP training system helps learners practice exercises and demos in real time.

### Remote delivery reduces training costs

- Remotely delivered learning helps to minimize travel costs and time out of the office.

### Complete Help Desk supports you throughout the course

- On-line support available through Web-based chat, Netmeeting, and expert instructor help support available at scheduled times.

### SAP eAcademies include

- e-Learning courses
- Help desk support
- Access to training systems
- Student handbooks

## Available SAP eAcademies

- [TFIN5e - SAP eAcademy Financials - Financial Accounting \(ECC 6.0\)](#)
- [TFIN2e - SAP eAcademy Financials - Management Accounting \(ECC 6.0\)](#)
- [THR1e - SAP eAcademy Human Resources \(HCM\) - Management & Administration \(ECC 6.0\)](#)
- [TSCM6e - SAP eAcademy SCM - Order Fulfillment \(ECC 6.0\)](#)
- [TSCM5e - SAP eAcademy SCM - Procurement \(ECC 6.0\)](#)
- [TSCM4e - SAP eAcademy SCM - Planning & Manufacturing \(ECC 6.0\)](#)
- [TERPe - SAP eAcademy ERP - Integration of Business Processes \(ECC 6.0\)](#)
- [TAW1e - SAP eAcademy NetWeaver - ABAP Basics \(SAP NetWeaver\)](#)

## Business Objectives

- Deliver knowledge wherever and whenever its needed
- Learner centric approach to learning and focus on business content relevant to the learner's job / role
- eAcademy is a supported learning that ensures availability of constant and consistent help to participants for all units covered in the module
- Mentor tips and SME interaction strengthens the learning
- Help desk – Voice Chat /Web based chat / Net meetings

## Benefits for our customers and partners

### On-line learning tailored to your needs

- Course content designed specifically for consultants; focused on business process and solution areas
- Flexible format allows learners to proceed at their own pace and repeat lessons as needed while providing interactive snapshots and simulated exercises
- Improved system access facilitates practical learning
- Live access to the SAP training system helps learners practice exercises and demos in real time
- Remote delivery reduces training costs
- Remotely delivered learning helps to minimize travel costs and time out of the office
- Complete Help Desk supports you throughout the course
- On-line support available through web-based chat, NetMeeting and expert instructor help support available at scheduled times

### Time Conscious

- Flexible Timing
- Customized Schedules
- Easy deployment
- Comfortable Pace

### Reduced Cost

- Minimum infrastructure requirements
- Reusable training
- No travel, logistics cost

### Increased Productivity

- Short training cycle
- Less time away from work
- Increases User Retention

### Quality of training material

- Consistent content through the enterprise
- Regular Updates

### Quality of learning

- Support individual learning styles
- Allows individual planning of schedules
- Hands on

**Attractive Pricing => Save up to 50% compared to classroom Academies Tracks**

## eAcademy Technology

SAP eAcademies allow partners and customers to attend courses remotely without the need to travel to SAP Education training facilities. Students get access to e-learning, sandbox systems and helpdesk support.

SAP Education partner DEXLER acts as single point of contact for students during training phase. Dexler manages access to training systems, e-learning content and student handbook (PDF print file with watermark) and provides technical and content support to the students. Students will get temporal limited access to e-learning courses and training systems for hands-on exercises. Access period for eAcademies depends on duration of ILT courses. SAP Education offers 2 duration categories for eAcademy access:

- For eAcademies based on ILT courses with a duration of 20 to 25 days: 5 month of access
- For eAcademies based on ILT courses with a duration of 10 days: 3 month of access

For more information on [sap.com/education](http://www.sap.com/education) please go to:

<http://www.sap.com/services/education/certtraining/eacademies/index.epx>

## Components

### Students get access to:

- Dexler's LMS with e-learning content via internet
- Standard SAP training system via WTS (or partner centers)
- Support center for technical or content related questions (Dexler)
- Dexler manages the technical environment for eAcademy delivery.
- Students get access to training system (KPS standard training systems) via WTS or education partner centers and access to e-learning content and downloadable PDF print file of student handbook via internet browser.
- Online support available through web-based chat, NetMeeting and expert instructor help support available at scheduled times.
- Certifications are not included in eAcademies. SAP certifications have to be booked separately.

### WTS Training System

There will be a dedicated server pool available for e-academies, provided by KPS and managed by Dexler. Dexler performs the system preparation (CATTs) as well as user creation as part of the service. Systems will not have to be reserved per course in ILP, but a process for capacity monitoring and scaling will be implemented based on demand forecasts.

- Participants also need to conduct WTS connection and set-up checks. Please follow the link for more information about technical requirements: <http://mywts.sap.com/download/VLC-WTS-Delivery-All.pdf>

### Content/Deliverables

- SAP eAcademies consist of several e-learning courses (overview and detailed).
- Help Desk Support is provided for the participants to enable them to understand the training material, resolve queries and assist in assignments during the access period.
- In this timeframe the participants will get access to training systems to work through the exercises and demo scenarios. Support is available through web-based chat, NetMeeting and expert instructor help. Support is available at scheduled times. eAcademies are based on ECC6.0 systems only.

## Technical Requirements

### Minimum System Requirements

To ensure the best learning experience on our platform we recommend the following minimum system requirements:

#### Hardware Requirements

**Processor:** Minimum 400 MHz processor, recommended: Pentium IV 1.6 GHz

**RAM:** 256 MB RAM minimum, 512 MB RAM recommended

User Name Password Client: 18

**Sound:** 16-bit sound card, with speakers or a headset (optional)

**Screen Resolution:** 1024 by 768 (minimum)

Sound card with speakers or headphones

**Printer** – Some courses allow print option on some of the material.

#### Operating System

Microsoft Windows 98 SE, Microsoft Windows NT 4.xx, Microsoft Windows ME, Microsoft Windows 2000. Windows XP, Windows Vista

#### Software

Citrix ICA Client for Windows

Available through “Download Center” on <http://mywts.sap.com>

Microsoft Installer Version 2 or higher

## **Browser**

We recommend using Internet Explorer Version 6 or later versions.  
Please ensure the pop up blocker is turned off.

## **Plug-in requirements**

The courses require at least Flash 9 plug-in (subversion greater than 115) in order to function. If Flash is not preinstalled on the computer, it may be obtained for free at:  
<http://www.macromedia.com/downloads/>

For web assessments, the Sun Java plug-in JRE 1.4.2 or higher is required. If JRE is not preinstalled on the computer, the most recent version may be obtained for free a  
<http://java.sun.com/j2se/1.4.2/download.html>

Acrobat PDF Reader:

<http://www.adobe.com/products/acrobat/readstep2.html>

## **Bandwidth Requirements**

To access the e-Academy platform we recommend an Internet connection with a minimum connection speed of 256 kbps (kilobits per second). A higher bandwidth connection will ensure a quicker access to the course. Please perform the following test to verify your connection.

## **Connection, Latency and Bandwidth Tests**

All tests should be carried out on your PC from the location you will attend the eAcademy.  
Go to <http://mywts.sap.com>

Choose your local region: AMERICAS, EMEA, or APJ and follow the instructions  
Recommended bandwidth requirements are 30Kbps to 50 Kbps per logon (student or instructor). An additional 40kbps per connection is recommended in excess of their normal demand.

## Technical Support

Technical support for training systems, access and WTS connections will be provided to the students by Dexler. KPS will provide support to Dexler via CSS tickets.

All support requests coming from students must be sent to [support@saponeworld.com](mailto:support@saponeworld.com) with a valid user id.

- Change password 1 business day\*
- Unlock password 1 business day\*
- Content not loading 1 business day\*
- Unable to access my training server 1 business day\*

\*1 Business day: Monday through Friday between 7.00 am to 11.00 pm (GMT + 5.5 hours). Support requests raised on Friday evening will be resolved on Monday.
