

# VIRTUAL CLASSROOM TRAINING FROM SAP® EDUCATION

## THE COMPREHENSIVE TRAINING YOU NEED WITHOUT THE TRAVEL COSTS

Need cutting-edge training that's good for your business and budget? Virtual remote classroom training from the SAP® Education organization provides hands-on classes taught by SAP experts. You can attend from anywhere and get the quality interaction of a regular class without the cost and hassle of travel.

When it comes to cutting cost, training budgets are often the first to go. After all, travel expenses and the hidden costs of lost productivity can add up. At the same time, competitive pressures require you to stay current with the SAP® technology that runs your business. This is why the SAP Education organization offers virtual classroom training.

### The Same Quality Training at a Far Lower Cost

With virtual classroom training, you get the high-quality training experience you expect from SAP without incurring travel-related costs. Led by SAP experts and delivered via the Internet, classes stress hands-on learning and provide each student with access to live SAP applications for the duration of the course. Options include:

- **Publicly available virtual classroom training** – Scheduled classes covering a full range of topics; to view class schedules, visit [www.sap.com/services/education/catalog/virtual](http://www.sap.com/services/education/catalog/virtual)
- **Customer-specific virtual classroom training** – Courses delivered exclusively for your company wherever your people happen to be

### Advantages over Traditional Classroom Training

In addition to travel cost savings, virtual classroom training provides these advantages over traditional brick-and-mortar classroom training:

- Longer access to SAP servers for hands-on activities (not limited by training center hours)
- Electronic versions of course manuals for optional printing

- One PC per student (SAP classrooms are designed for two students per PC)
- For a more detailed comparison of virtual classroom training versus traditional brick-and-mortar classroom training, go to [www.sap.com/services/education/catalog/virtual](http://www.sap.com/services/education/catalog/virtual).

### Training That Makes Financial and Strategic Sense

With our virtual remote classroom training, you can:

- **Lower training costs** by eliminating travel expenses
- **Increase your SAP know-how** with a full array of virtual courses
- **Reduce total cost of ownership** with training that mitigates the complexity, delay, and cost of implementation
- **Stay competitive in uncertain economic times** with custom training focused on your business needs

### Find Out More

To learn more, contact your SAP Education account manager or visit [www.sap.com/services/education](http://www.sap.com/services/education).

### Getting Connected

To attend a virtual classroom training course from SAP, you'll need:

- A PC – a 17-inch or larger monitor is suggested for best viewing results
- High-speed Internet access
- A quiet learning environment with phone for audio
- The ability to install required software to support presentation and hands-on activities

A list of detailed technical requirements is available at [www.sap.com/usa/services/education/registration/virtual/index.epx](http://www.sap.com/usa/services/education/registration/virtual/index.epx).

---

## Summary

Get the SAP training that keeps you competitive with virtual classroom training from the SAP® Education organization. These hands-on classes are taught by SAP experts, and you can attend right from your office or home. You get the same high-quality training you've come to expect from SAP without the cost and hassle of travel.

---
