

**Tighten Up the Supply Chain
and Reduce Costs with
SAP® Inventory Manager**

The Best-Run Businesses Run SAP®

Summary

With the SAP® Inventory Manager mobile app, warehouse clerks, maintenance engineers, and field service technicians alike can be confident of having the mission-critical parts, tools, and materials they need to get the job done. Speed up cycle counts, transfers, issues, and receipts, and keep a handle on your carrying costs.

Objectives

- Ensuring that stoppages and interruptions do not occur or are not prolonged due to an inventory shortage
- Keeping obsolescence, shrinkage, theft, and carrying costs under control
- Making sure high-value and sensitive items are properly handled

Solution

- Receive, issue, and transfer inventory
- Prepick, pack, and stage items
- Request, order, and install parts
- Remove parts and process returns
- Track materials by number, work order, bin, location, and so on
- Perform inventory and warehouse stock physical counts
- Transfer warehouse stock
- Have availability while online, offline, and "sometimes connected"
- Run natively on Android, iOS, Microsoft Windows 7 and 8, and Windows Mobile

Benefits

- Reduce costs associated with delayed repairs and prolonged downtime resulting from part shortages
- Reduce inventory carrying costs
- Tighten the supply chain, service response times, and ship-to-bill cycles

BOOST WORKFORCE PRODUCTIVITY

The SAP® Inventory Manager mobile app helps ensure that field service and maintenance engineers have the mission-critical parts they need to bring assets, services, and customers back online as quickly as possible. Warehouse personnel can handle inventory quickly and maintain necessary stock levels, while field personnel can locate and access the parts, tools, and materials they need. Cycle counts and spot checks can be performed more frequently.

SAP Inventory Manager enables your enterprise to capture and maintain accurate inventory data for the reliable visibility across the value

chain required to maintain optimal inventory levels and tighten the supply chain. This way, you can implement the appropriate just-in-time or just-in-case strategies. A tighter supply chain and accurate inventory levels reduce carrying costs, as well as minimize the costs associated with service delays and prolonged outages and failures.

IMPROVE REGULATORY COMPLIANCE

SAP Inventory Manager automatically generates reliable electronic audit trails for compliance with regulatory agencies and oversight groups, helping you avoid associated penalties.
