BUSINESS TRANSFORMATION

The company's top objectives

- Standardize processes, reduce cycle time, and accelerate project execution
- Provide clear and transparent data across the enterprise
- Improve coordination to manage deadlines and deliver projects ahead of schedule

The resolution

- Implemented the SAP® Business All-in-One for Engineering, Construction & Operations solution alongside SAP BusinessObjects™ solutions
- Went live in five months with two months of postimplementation support
- Actively monitored the quality of delivery and deliverables

The key benefits

- Standardized processes across the company
- Increased engineer productivity, enabling the consistent and on-time delivery of projects
- Improved decision making by providing a single source of truth and enterprise-wide visibility

“We found that the SAP Business All-in-One for Engineering, Construction & Operations solution is the best fit for our company. It is helping us achieve our goals for growth, efficiency, scalability, visibility, and integration.”

Hadi Darwiche, Deputy General Manager, CAP France BAT S.A.
