TFIN50 · Financial Accounting 1

DURATION 10 days **PRICE** € 5650 **STARTING DATES** On request

TARGET GROUP

- Solution consultants responsible for implementing Financial Accounting with SAP ERP Financials

GOALS

- At the conclusion of this course, you will be able to:
 - Configure and use organizational units, master data and documents for Financial Accounting
 - Configure and use the SAP business processes (such as payment, dunning, and individual closing)
 - Apply selected evaluation methods

PREREQUISITES - REQUIRED

- Business knowledge of the Financial Accounting component (Financials)
- The following are included in posting TFIN50:
 - E-learning SAP125 SAP Navigation 2005,
 - ERP001 Management Empowered by SAP ERP,
 - ERP020 Management Empowered by SAP ERP Financials, which you must study in your own time before the course begins

SOFTWARE

- ERP ECC 6.0

CONTENT

- Organizational units, master data and documents for Financial Accounting: company code, fiscal year, currencies, general ledger accounts, document control, postings, clearing open items, cash journal
- Special G/L transactions and document parking
- Handling of payments, dunning, interest calculation, correspondence and closing operations in Financial Accounting:
 - Automatic payment program with clearing of open items
 - Automatic dunning program for creating dunning notices, interest calculation and correspondence
 - Overview of month and year-end accounting processes in Financial Accounting
 - Balance sheet and P&L
 - Preparatory closing postings in subledgers and the general ledger

- Technical organizational and documentary steps in individual closing
- Configuration of periodic closings in Financial Accounting
- Evaluation methods in Financial Accounting (Infosystem and ABAP reports of general ledger accounting, accounts receivable accounting, and accounts payable accounting, report variants, selection variables in variants, List Viewer, sample evaluations using the drilldown reporting tool)

NOTES

- To ensure that you retain the knowledge gained in this course and successfully complete the certification examination at the end of course TFIN52, we recommend that you consolidate the content in your own time after the course.

Academy SAP Enterprise Resource Planning

SAP ERP Financials

TFIN52 · Financial Accounting 2

DURATION 10 days **PRICE** € 5650 **STARTING DATES** On request

TARGET GROUP

- Solution consultants responsible for implementing Financial Accounting with SAP ERP Financials

PREREQUISITES - REQUIRED

- Business knowledge of the Financial Accounting component (Financials)
- TFIN50 Financial Accounting I
- The following are included in posting TFIN52:
 - E-learning SM001 Introduction to SAP Solution Manager,
 - E-learning SAP125 SAP Navigation 2005
 - E-learning ERP001 Management Empowered by SAP ERP
 - E-learning ERP020 Management Empowered by SAP ERP Financials
 - which you must study in your own time before the course begins

GOALS

- At the conclusion of this course, you will be able to:
 - Implement various business processes and periodic tasks in Asset Accounting, manage master data and configure Asset Accounting

- Describe and implement the logic of the new general ledger,
- Apply substitutions and validations to financial accounting
- Utilize your knowledge directly as a junior consultant in your first period of practice

CONTENT

- Organizational structures, master data, and business processes in Asset Accounting:
- Chart of depreciation, depreciation area, asset classes, master data, asset transactions, valuation, periodic processing, information system
- Validations and substitutions in Financial Accounting
- The new general ledger: The concept of the new general ledger, system configuration, documents and document splitting, integration with the FI subledgers and the CO, reporting (using the new FI drilldown reporting)
- Integrated case study: implementation of a fictitious demo company using specific business processes,

configuration and mapping of the company structure, master data, and business processes in the SAP system

- Review and certification preparation
- Certification examination for Solution Consultant in Financials - Financial Accounting with SAP ERP 2005 on the content of the courses SAP120, ERP001, ERP020, TFIN50, SM001, TFIN52

SOFTWARE

- ERP ECC 6.0

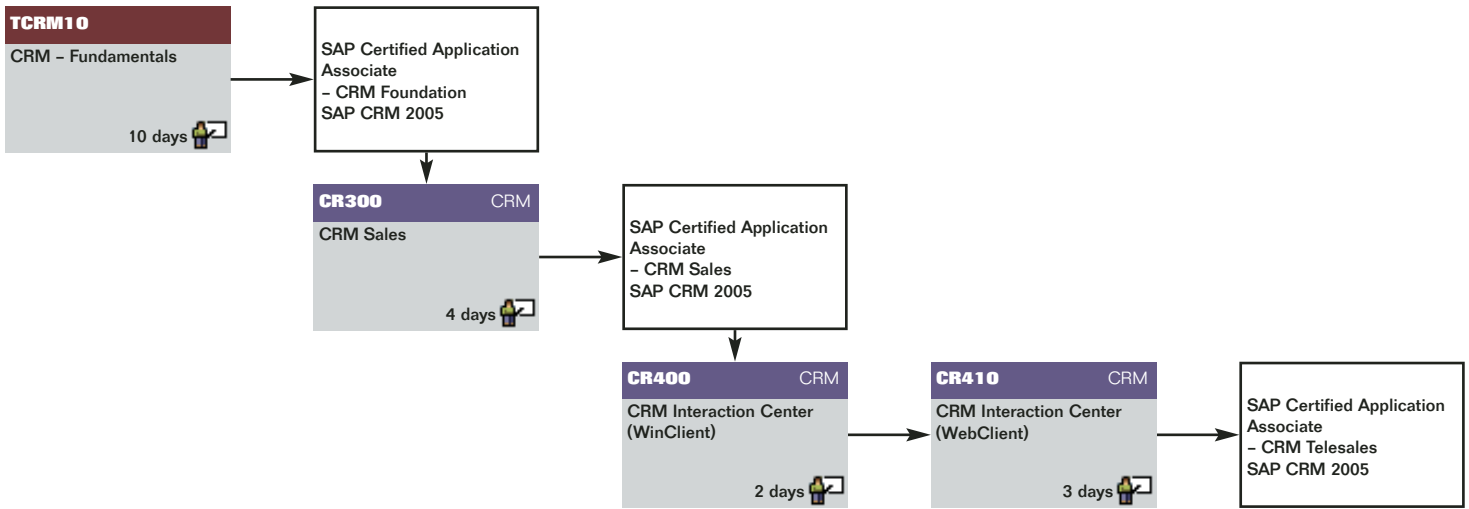

NOTES

- To ensure that you retain the knowledge gained in this course and successfully complete the certification examination at the end of course TFIN52, we recommend that you consolidate the content in your own time after the course.

DURATION 10 days **PRICE** € 5650 **STARTING DATES** 11-feb-08, 02-jun-08

TARGET AUDIENCE

- Solution consultants responsible for implementing Customer Relationship Management with mySAP CRM

PREREQUISITES - REQUIRED

- Basic business knowledge of CRM processes and concepts

PREREQUISITES - RECOMMENDED

- Knowledge of mySAP ERP sales business processes (for example, TSCM60 Order Fulfillment I or SCM600 Processes in Sales and Distribution)

GOALS

- At the conclusion of this course, you will be able to:
- Use the basic knowledge a CRM solution consultant requires for all consultant profiles

CONTENT

- Overview of the mySAP CRM solution:
 - Fundamentals and architecture
 - Overview of key areas (Analytics, Marketing, E-Commerce, Channel Management, Sales, Interaction Center, Service, Field Applications, Implementation & Operation)
- Customizing fundamentals for CRM:
 - CRM basic data (business partner, organizational model, product master, plus the accompanying Customizing)
 - CRM business transactions (overview of the generic functions in business transactions, activity management, essentials of Customizing) Transaction monitoring and determination (partner determination, overview of pricing in CRM, promotions, CRM billing)

- Solution Manager (project preparation phase, Business Blueprint phase, implementation phase)
- CRM Middleware: basic concepts of CRM middleware, replication administration, data exchange, monitoring, and error handling
- User interface (UI) technology in mySAP CRM
- Case Study: implementation of example scenarios using specific business processes

SOFTWARE

- CRM 5.0
- EP 7.0
- ERP ECC 6.0

NOTES

- The course material is available in English only.

Academy SAP NetWeaver

Business Intelligence Solution Consultant

TBW10 · BI Enterprise Data Warehousing

DURATION 5 days **PRICE** € 2825 **STARTING DATES** 07-jan-08, 31-mrt-08

TARGET GROUP

Solution consultants responsible for implementing SAP NetWeaver Business Intelligence

PREREQUISITES - REQUIRED

Basic knowledge of data warehousing

PREREQUISITES - RECOMMENDED

- Experience of one SAP component
- Basic understanding of the Data Dictionary

GOALS

The participants gain the detailed BI knowledge necessary to carry out successful implementation and administration within a heterogeneous SAP BI system landscape

CONTENT

- Architecture of SAP NetWeaver 2004s BI
- Overview of the most important objects (Info objects, InfoProviders and so on) in BI and their properties
- Components of the data flow and extracting data from SAP source systems or other data sources in the BI
- Benefits and use of the business content
- Introduction to administration of BI data targets
- Basics for optimizing query performance (BI accelerator)

SOFTWARE

SAP NetWeaver 2004s

NOTES

To ensure that you retain the knowledge gained in this course and successfully complete the certification examination at the end of course TBW45, we recommend that you consolidate the content in your own time after the course.

TBW20 · BI Reporting & Query Design

DURATION 5 days **PRICE** € 2825 **STARTING DATES** 14-jan-08, 07-apr-08

TARGET GROUP

Solution consultants responsible for implementing SAP NetWeaver Business Intelligence

PREREQUISITES - REQUIRED

TBW10 (SAP Business Intelligence – Data Warehousing)

GOALS

In this course you will gain knowledge that will enable you to create simple and complex query definitions with the BEx Query Designer and the BEx Web Analyzer, and make these available in standard layouts.

CONTENT

- Architecture and functions of the SAP BI analysis tools

- Navigation in SAP BI reports
- Creating query definitions with the BEx Query Designer and the BEx Web Analyzer
- Integrating key figures, characteristics, hierarchies, variables, properties, exceptions, and conditions in the query definitions
- Using the BEx information broadcaster to distribute reports
- Integrating applications in the SAP Enterprise Portal
- Integrating documents in reports
- Configuring report-report interfaces
- Presenting reports in MS Excel or HTML
- Using predefined reports from the SAP

Business Content

Business Intelligence Solution Consultant

TBW41 · BI – Extraction with UDI & XI and APD

DURATION 4 hours **PRICE** € 400 **E-LEARNING**

TARGET GROUP

Solution consultants responsible for implementing SAP NetWeaver Business Intelligence

PREREQUISITES - REQUIRED

- TBW10 (BI – Enterprise Data Warehousing)
- TBW20 (BI – Reporting & Query Design)

GOALS

In this course, you will become familiar with selected information from the topic areas UDI, XI, and APD.

CONTENT

- Universal data integration
- Exchange Infrastructure
- Process Designer analysis

SOFTWARE

SAP NetWeaver 2004s

NOTES

- To ensure that you retain the knowledge gained in this course and successfully complete the certification examination at the end of course TBW45, we recommend that you consolidate the content in your own time after the course.
- A training system is not available from SAP Education for this E-learning.

TBW42 · BI Advanced Enterprise Data Warehousing & Reporting

DURATION 10 days **PRICE** € 5650 **STARTING DATES** 21-jan-08, 14-apr-08

TARGET GROUP

Solution consultants responsible for implementing SAP NetWeaver Business Intelligence

PREREQUISITES - REQUIRED

- TBW10 (BI – Enterprise Data Warehousing)
- TBW20 (BI – Reporting & Query Design)
- The following are included in posting TBW42: E-learning TBW41 (BI – Extraction with UDI & XI and APD), which you must study in your own time before the course begins

GOALS

In this course, you will gain in-depth knowledge in the areas of extraction, performance & administration, authorizations, and modeling and layout of reports.

CONTENT

- Data acquisition (data flow in BI, transformations, delta management,

enhancement of Business Content

DataSources, process of extracting data from SAP source systems, data staging via different interfaces, real-time data acquisition, direct access, unit of measure conversion)

- Performance & administration (process chains, aggregates, BI accelerator)
- User management & authorizations (architecture and strategies for a BI authorization concept, security requests in SAP BI, creating authorizations for reporting, administrative tasks, source systems, and the planning environment)
- Modeling (creating authorizations for reporting, developing a BI data model, modeling data marts, enhancing/changing the data model, remodeling, aspects of an Enterprise Data Warehouse architecture, special aspects of modeling and data warehousing, InfoSets, MultiProvider,

and Open Hub Service)

- Report layout (using different webitems to create demanding web applications, creating formatted reports that are optimized for presentation and printing, using GIS functions to display data on maps, advanced options and settings options in the BEx Information Broadcaster, using the advanced options in MS Excel, introduction to modelling analytical applications using the Visual Composer)

SOFTWARE

SAP NetWeaver 2004s

NOTES

To ensure that you retain the knowledge gained in this course and successfully complete the certification examination at the end of course TBW45, we recommend that you consolidate the content in your own time after the course.

Academy SAP NetWeaver

Business Intelligence Solution Consultant

TBW45 · BI Business Planning and Simulation

DURATION 5 days **PRICE** € 2825 **STARTING DATES** 04-feb-08, 05-mei-08

TARGET GROUP

Solution consultants responsible for implementing SAP NetWeaver Business Intelligence

PREREQUISITES - REQUIRED

For new SAP BI consultants:

- TBW10 (BI – Enterprise Data Warehousing)
- TBW20 (BI – Reporting & Query Design)
- TBW41 (BI – Extraction with UDI & XI and APD)
- TBW42 (BI – Advanced Enterprise Data Warehousing & Reporting)

GOALS

This course give you an in-depth insight into BI integrated planning

CONTENT

- Status and tracking system
- Setting up planning structures and looking at modelling aspects
- Customizing and executing planning functions
- Setting up a planning query that is ready for input using the BEx Query Designer
- Integrating the planning query in different end-user interfaces
- Displaying different query tools in a planning context

- Using characteristic relationships to integrate the correct business characteristic relationships in planning
- Integrating the status and tracking system in planning, as a monitoring tool
- Certification examination for SAP NetWeaver 2004s – Business Intelligence Solution Consultant on the content of courses TBW10, TBW20, TBW41, TBW42, and TBW45

SOFTWARE

SAP NetWeaver 2004s

TBW70D · BI - Delta Enterprise Data Warehousing & Reporting SAP NetWeaver 2004s

DURATION 5 days **PRICE** € 2825* **STARTING DATES** On request

TARGET GROUP

Solution Consultants responsible for implementing SAP NetWeaver Business Intelligence who already have experience with SAP BW 3.5

PREREQUISITES - REQUIRED

A solid knowledge of SAP BW 3.5

GOALS

- Overview of the new Enterprise Data Warehousing and reporting functions in SAP NetWeaver 2004s
- For the delta certification examination only: a certificate in accordance with the description of certification (you must have this certificate before sitting the examination)

CONTENT

- Introduction to Enterprise Data Warehousing
- Data Warehousing Workbench
- Enhanced functions of InfoSets, DataStore objects
- Remodeling toolbox

- Business Content Analyzer and Content Browser
- Unit of measure conversion
- New data flow concept, BI data sources
- Enhanced process chain functionalities
- Virtual provider and remote access to master and transaction data, real-time data acquisition
- BI accelerator
- Concept for Information Lifecycle Management
- BEx Query Designer (new user interface and analytical functions), BEx Web Analyzer (new functions), BEx Report Designer, BEx Web Application Designer (new user interface, new functions such as Command Wizard, new Web items, new graphics functionalities), BEx Analyzer (new navigation functions, enhanced Excel integration, design mode), BEx Information Broadcaster (new functions)
- Introduction to the Visual Composer

- New functionalities in document integration
- New concept for reporting authorizations
- Delta certification examination to become a solution consultant for SAP NetWeaver 2004s based on the content of courses TBW45, TBW41, TBW70D (for delta exam BW 3.0 – 2004s) or DBW70P, TBW70D (for delta exam BW 3.5 – 2004s)

SOFTWARE

SAP NetWeaver 2004s

NOTES

After completing this course, you will be able to sit the delta certification exam BW 3.0 – SAP NetWeaver 2004s (2 hours) or BW 3.5 – SAP NetWeaver 2004s (1 hour), depending on the certificates you have. Specify which certification exam you wish to sit when you register for the course.

* Indien direct aansluitend de certificeringstest afgenomen wordt is genoemde prijs inclusief certificeringskosten.

Academy SAP NetWeaver

Business Intelligence Solution Consultant

TBWD35 · Delta-Reporting WHM, Extraction (SAP BW 3.0 - 3.5)

DURATION 3 days **PRICE** € 1695 **STARTING DATES** On request

TARGET GROUP

Solution Consultants responsible for implementing SAP Business Intelligence who already have experience with SAP BW 3.0B/3.1C

PREREQUISITES - REQUIRED

A solid knowledge of SAP BW 3.0B/3.1C

GOALS

This course will prepare you to:

Use the new reporting, Warehouse Management (WHM), and extraction functions in SAP BW 3.5

CONTENT

■ New features in reporting:

- Enhanced functionality in the availability and use of reports with the BEx Broadcaster
- Introduction to SAP Chart Designer and new Web items in the Web Application Designer
- Introduction to BEx Web Analyzer
- Introduction to the new planning functions
- Simple report publishing in SAP Enterprise Portal
- New features in WHM/extraction:
- Enhanced flexibility in the extraction process through: Universal Data

Integration (Universal Data Connect, BI Java Connector, BI Java SDK)

- Enhanced open-hub service for third-party extraction tools

■ SAP BI Data Mining overview

SOFTWARE

SAP Business Information Warehouse 3.5

Exchange Infrastructure and Integration

TADMD5 · Delta Implementation & Operations SAP Web AS 6.20 - 6.40

DURATION 5 days **PRICE** € 2825* **STARTING DATES** On request

TARGET GROUP

Technology consultants who are responsible for the implementation and operation of SAP systems and who already have experience of SAP Web AS 6.20

PREREQUISITES - REQUIRED

- Experience implementing and operating SAP systems using SAP R/3 4.6B or SAP Web AS 6.20
- For the delta certification examination only: Certification exam as Technology Consultant SAP NetWeaver – SAP Web AS Impl. & Oper. for [DB] (2003, SAP Web AS 6.20). This must be presented for the certification exam.

GOALS

This course covers the main differences between the certification training courses for SAP Web AS 6.20 and SAP Web AS 6.40 (especially SAP Web AS Java administration).

CONTENT

- Fundamentals of SAP Web AS Java
- Starting and stopping
- Basic configuration of SAP Web AS Java
- User administration in SAP Web AS Java
- Monitoring SAP Web AS Java
- Patching for SAP Web AS Java
- Change management and software logistics for SAPWeb AS Java
- Other topics related to system administration for SAP Web AS Java
- Configuration of integrated SAP Internet Transaction Server (SAP ITS) and use of SAP GUI for HTML
- New features in SAP Web Dispatcher and ICM
- Delta certification examination for Technology Consultant SAP NetWeaver 2004 – SAPWeb AS for [DB], based on the course content

SOFTWARE

SAP Web Application Server 6.40

NOTES

This course is included in the Technology Consultant SAP NetWeaver '04 – SAPWeb AS curriculum as a delta course with a delta certification examination. It is also included as a baseline training course for Java administration in the Technology Consultant SAP NetWeaver 2004 – Enterprise Portal & KMC curriculum (for consultants with prior knowledge of SAP Web AS ABAP administration, but with no experience of Java administration; such participants do not need to take the delta certification examination).

* Indien direct aansluitend de certificeringstest afgenomen wordt is genoemde prijs inclusief certificeringskosten.

TBIT40 · XI Fundamentals

DURATION 5 days **PRICE** € 3175 **STARTING DATES** On request

TARGET GROUP

- Consultants and developers who want to set up scenarios with the SAP NetWeaver Exchange Infrastructure (SAP XI, i.e. SAP NetWeaver Process Integration PI)

PREREQUISITES - REQUIRED

- SAPTEC Fundamentals of SAP Web AS
- BIT100 SAP NetWeaver Process Integration - Overview

PREREQUISITES - RECOMMENDED

None

GOALS

- The participants will learn to configure scenarios and
- Understand and configure the different options with which a back-end system can be connected to the SAP Exchange Infrastructure (SAP XI).

CONTENT

- Architecture and components of the SAP Exchange Infrastructure
- Configuration and runtime behavior of synchronous and asynchronous scenarios

- Connecting back-end systems using proxies and adapters (especially file adapters, HTTP adapter, IDoc adapter and RFC adapter)
- Overview of mapping and message mapping
- Overview of cross-component Business Process Management (ccBPM)

SOFTWARE

- XI 7.0
- SAP NetWeaver 7.0

Academy SAP NetWeaver

Exchange Infrastructure and Integration

TBIT44 · Mapping, Adapters and BPM

DURATION 5 days **PRICE** € 2825* **STARTING DATES** 10-mrt-08, 23-jun-08

TARGET GROUP

- Development consultants responsible for configuring SAP XI scenarios

PREREQUISITES - REQUIRED

- TBIT40 (XI Fundamentals)
- BIT402 (Adapter Concepts I)
- BIT403 (Adapter Concepts II)

PREREQUISITES - RECOMMENDED

- BIT100 (SAP NetWeaver Process Integration) or equivalent knowledge; BIT140 (Introduction to XML) or equivalent knowledge
- Basic Java programming knowledge

GOALS

- Implement complex XI scenarios, including enhanced mapping and BPM functions

CONTENT

- BPM
- Overview of BPM
- Step types for ccBPM processes in the SAP Exchange Infrastructure (SAP BPEL4WS import and export)
- Delivered samples (process patterns)
- Exception handling in ccBPM processes
- Monitoring and error handling in ccBPM processes
- Mapping
- Overview of mapping techniques
- Standard functions in message mapping
- User-defined functions in message mapping
- Complex mapping tasks in message mapping
- Value-mapping techniques in message mapping

- Further techniques of message mapping including ABAP, Java, and XSLT mapping
- Examination for certification as a Development Consultant for SAP NetWeaver

SOFTWARE

- SAP NetWeaver 7.0
- SAP Exchange Infrastructure 3.0

NOTES

- To ensure that you retain the knowledge gained in this course and successfully complete the certification examination, it is essential that you consolidate the content in your own time after the course.

* Indien direct aansluitend de certificeringstest afgenomen wordt is genoemde prijs inclusief certificeringskosten.

TBIT50 · XI Technical Implementation & Operations (Part 1)

DURATION 13,5 hours **PRICE** € 500 **E-LEARNING**

TARGET GROUP

- Technology Consultants responsible for the implementation and operation of SAP NetWeaver XI

PREREQUISITES - REQUIRED

- TBIT40 SAP NetWeaver Exchange Infrastructure

PREREQUISITES - RECOMMENDED

- TADMDS Delta Implementation & Operation SAP Web AS 6.20 - SAP Web
- AS 6.40 (Java & ABAP) to gain Java administration know-how

GOALS

- Perform the administration and monitoring tasks relevant to the specific components covered in the course.

CONTENT

- XI technical architecture overview
- Exchange profile
- SLD
- Runtime workbench
- IB administration
- SW logistics
- Network considerations
- Operations
- XI tuning

SOFTWARE

- XI 7.0

NOTES

- In most countries (for example, Germany) access to e-learning is granted when you book the classroom training course that follows on from the e-learning course, as stated in the curriculum. In other words, participation in the e-learning course is included in the price of the classroom training course. In some countries, e-learning is not included in the price of classroom training. Please contact your local training department for more information.
- If you have studied this e-learning material in detail, successful participation in the following classroom training course is possible in all cases.
- The course material is available in English only. A training system is not available from SAP Education for e-learning.

Academy SAP NetWeaver

Exchange Infrastructure and Integration
