of partners are highly likely to recommend SAP's Social Sabbatical program to another organization.

74%

of employees report a long-term impact on their professional careers.

86%

improved their ability to collaborate with global and diverse colleagues by their participation in the Social Sabbatical.

I listen better to other people's needs. In the Social Sabbatical, you will really learn to listen to your customers and understand their needs. – SAP participant, Philippines

The Social Sabbatical has definitely made me a more open-minded, globally fluent person...I can safely say that my experience in the country has made me a better person, with a stronger focus on equality and opportunity for everyone. – SAP participant, USA
