

Social Impact

The Social Sabbatical Program offers positive impacts for our social sector clients who participate in the program.

96%
of partner organizations report positive long-term impact.

Partners see the impact of the **Social Sabbatical** trickle down to how they serve their beneficiaries and their impact on them.

85%

of partners report a positive impact of the **Social Sabbatical** on their ability to serve their beneficiaries better.

Over **75%**

of partners say their employees' skills have been enhanced because of the engagement with SAP.

Top reported skills gained:

- Strategic planning
- Improved organization structure
- General improvements to organization

The work that SAP Social Sabbatical teams have done for us has saved us hundreds of hours of work. They provided expertise and tools that we didn't have and probably couldn't develop on our own, and have improved our ability to do and communicate our work to fundraise. - Director, Client Partner, Puerto Rico

The tools we were given to support business development taught the leadership team how to create, maintain, and update these to keep the organization moving forward. - Co-Founder, Client Partner, New Zealand
