

PRODUCT SPECIFIC LICENSE TERMS

Mobile Office (“Program”)

IN ADDITION TO THE LICENSE TERMS SET OUT IN THE LICENSE AGREEMENT, THE FOLLOWING ADDITIONAL OR DIFFERENT RIGHTS AND ACCOMPANYING OBLIGATIONS AND RESTRICTIONS SHALL APPLY TO THE PROGRAM FOR WHICH YOU HAVE PURCHASED A LICENSE.

The Program may contain or be provided with component software products from Sybase, iAnywhere and/or third parties. Except as set forth below, use of all components is limited to use in the same manner and capacity for which the Program as a whole is licensed.

I. Scope of Licenses and Restrictions. The Program is a suite containing several software components. Use of all licensed components of the Program is limited to the same Seats, Server(s) and CPUs for which you have acquired this Program license, and the components of this Program may not be unbundled or used separately.

a. Use Restrictions- Afaria Data Protect Client. Each copy of the Mobile Office Program includes the Afaria Data Protect Client Program. The Afaria Data Protect Client software component of the Program is licensed solely for Use in conjunction with the Mobile Office Program and may not be used on or with a Seat that does not contain and is not licensed for Use with the Mobile Office Program.

b. Use Restrictions- Business Process Mobilization. Each copy of the Mobile Office Program includes the Business Process Mobilization (“BPM”) Program. The Business Process Mobilization component of the Mobile Office Program may not be used without the purchase of separate Seat licenses for BPM. The BPM Program is comprised of the Business Process Widget Framework, the Widget Repository and Administration Tool, and the Business Process Mobilization Toolkit. For each BPM Seat license purchased, Customer is entitled to enable that Seat to utilize up to the number of Widgets indicated in the applicable Order (e.g., a 5-Widget Seat, an unlimited Widget Seat, etc.). In the context of the BPM Program, a “Widget” is software code generated by the BPM Toolkit that operates within the BPM Framework, enabling a Mobile Office Seat to manipulate pre-defined business processes or sets of data (e.g., purchase orders, time cards, etc.). Each BPM Seat license must be used in conjunction with a Mobile Office Seat license, and the number of BPM Seat licenses purchased by Customer cannot be greater than the number of Seats of the Mobile Office Program licensed by Customer.

II. Free Download Components. The Program may include certain third party open source and other free download components (“Free Download Components”). You may have additional rights in the Free Download Components that are provided by the third party licensors of those components. The Free Download Components and any such third party licenses and third party-required notices for the Program are identified at <http://www.sybase.com/thirdpartylegal>. Any obligations undertaken by Sybase in the Agreement relating to the Free Download Components as part of the Program are provided by Sybase alone, and not by the third party licensors of the Free Download Components. **A. FURTHER DISCLAIMER OF WARRANTIES AND LIABILITIES.** The Free Download Components are provided “AS IS” by the third party licensors, who disclaim all liabilities, damages (even if they have been advised of the possibility of such damages), warranties, indemnities and other obligations of any kind, express or implied, with regard to the Free Download Components. Nothing in the foregoing affects any performance warranty provided by Sybase with regard to the Program as a whole. **B. DISCLAIMER OF INDEMNITIES.** The Free Download Components are excluded from any indemnity provided by Sybase in the Agreement. **C. Software Subject to the Lesser General Public License (“LGPL”).** Certain of the Free Download Components are licensed under the Lesser General Public License (“LGPL”) (“LGPL Components”). In the event that you exercise any right granted to you under the LGPL to modify software subject to it, and relink and run that modified software with the Program, then notwithstanding anything to the contrary in the Agreement, Sybase shall have no warranty or support obligations of any kind with regard to the integration of the LGPL components, once modified by you, with the Program.
