If you use this software in a product, an acknowledgment in the product documentation would be appreciated but is not required. 2. Altered source versions must be plainly marked as such, and must not be misrepresented as being the original software. 3. This notice may not be removed or altered from any source distribution.

G.Govi

Component: STL_WCE

http://users.libero.it/g.govi/stlport_ce_en.html

This adaptation is based on SGI Standard Template Library - STL - version 3.3, June 8, 2000. It is provided under the following permission notices:

Copyright© 1996-1999

Silicon Graphics Computer Systems, Inc.

Permission to use, copy, modify, distribute and sell this software and its documentation for any purpose is hereby granted without fee, provided that the above copyright notice appears in all copies and that both that copyright notice and this permission notice appear in supporting documentation. Silicon Graphics makes no representations about the suitability of this software for any purpose. It is provided "as is" without express or implied warranty.

Copyright© 1994

Hewlett-Packard Company

Permission to use, copy, modify, distribute and sell this software and its documentation for any purpose is hereby granted without fee, provided that the above copyright notice appears in all copies and that both that copyright notice and this permission notice appear in supporting documentation. Hewlett-Packard Company makes no representations about the suitability of this software for any purpose. It is provided "as is" without express or implied warranty.

Before proceeding, please read the following notice:

You may freely use, copy, modify, or distribute this software and its documentation for any purpose, under all terms of the above mentioned legal notice. In other words, I make no representations about the suitability of this software for any purpose. It is provided "as is" without express or implied warranty.

I don't have the time to give any support, so please don't ask for help. Documentation on STL is available at STL site. I will appreciate any comment, feedback and so on. Just for my personal gratification: if you find this adaptation useful in a 'real world' project, please let me know.

Microsoft Corporation

Components: Redistributables from software development kits.

No third party notes or licenses required.

MVPS.ORG (Kasza/Fell/Restrepo)

Component: fksec

www.win32.mmvpts.org/license.html

I have actually had an inquiry regarding the licensing of the sample code on this web site. For the record, all code on this site is hereby placed in the public domain, unless otherwise stated. You are free to use it, study it, trash it, modify it, sell it with or without changes, or do whatever else you want, with three restrictions and two polite requests:

Restriction 1: Code on this web site.

"This web site" refers, specifically, to anything that resides in the www.mvps.org server's / subdirectory; this excludes, for instance, any other sites residing on this server.

Restriction 2: Code not written by me, Felix Kasza.

There are a few samples which are not mine, but whose authors have given me permission to redistribute their work. These are: everything in the /slava/ subdirectory on this server, owned by Slava Usov; lu_cpau_gui.cpp, written by Chris Novak; zoomview.zip (and its contents), by Thomas Zeisluf; Isa_lqip.c, by Marc Esipovich; denum32.cpp, by Michael Reed. These samples are expressly not placed in the public domain; anything beyond the intended use as studying material must be negotiated with the authors directly.

Exception to restriction 2: fksec contributions by Simon Fell and Tomas Restrepo. Simon, Tomas and I are co-authors of the fksec class library (found [elsewhere](#) on this site). Both Simon and Tomas have kindly agreed to place their contributions to fksec in the public domain; the entire fksec class library is therefore unencumbered and yours to use or abuse as you please.

Restriction 3: It's all your fault.

These samples are _samples_. They may do something useful, or may help in understanding a problem; or they may not. If they do not, I would appreciate if you let me know, so I can fix the sample; but I recognize no obligation on my part for doing that. As I said, it's all your fault.

Polite request 1: Give credit.

If you appropriate one of my samples, I don't even ask to be named: but I do ask

that you don't claim credit for my work.

Polite request 2: Don't link to sample code.

Many samples are accompanied by remarks without which the code may not make much sense. Please link to the HTML page describing a sample, not to the source file itself. If you are wish to incorporate any of my code into a commercial product and would sleep better if you had a signed version of this dedication into the public domain, drop me a line, or use the [feedback form](#), please.
