Location of Data Centers utilized for SAP Cloud Services (Status: v.6-2026)

The below list is meant for information purposes only and contains data centers that currently operate SAP cloud services. Please note that SAP cloud services may as well be enabled for deployment on other than the displayed data centers. For some SAP cloud services, a customer can select the data center during the implementation of the service. SAP deploys secondary data centers (not listed here) in the region of the primary data center for backup and disaster recovery purposes. SAP may change this list at its discretion. For more information, please contact your SAP representative.
